BLUESHARE SECURITY TOKEN OFFERING OF INTERPROM MINING AG EQUITY SHARES

BY INTERPROM MINING AG (CH)

BLUESHARE SECURITY TOKEN OFFERING OF INTERPROM MINING AG EQUITY SHARES

Blueshare security token is the easiest and fastest way to own shares of **Interprom Mining AG** - a consolidated well-established and recognized company with a 22 year old history that is currently building a 90 Million Euro underground subway metro in a European capital city!

Interprom Mining AG strives to be one of the first Swiss based consolidated companies to offer its paper equity shares on the Ethereum blockchain.

By holding a **Blueshare** security token you possess title to ownership claim to a participation share certificate of our company.

We are building and have completed large-scale construction projects such as urban underground subway systems & complex water supply networks, wastewater purification plants, complex urban infrastructure, road construction, power generation, healthcare, and education. Interprom is currently executing the second stage of a 90 million euro subway construction project in Sofia, Bulgaria including 5 km of tunneling and 5 metro stations, which are due for handover in Q4 2019.

Since 1996 we have achieved remarkable growth being on the leading front of innovation that has transformed our family business into a leading construction company with billions of euros of forthcoming projects in its pipeline. Keeping true to our nature we are yet again taking on implementing two strategic novelties into our company namely natural resources and mining exploration and most notably the Ethereum blockchain.

Over the past 5 years, we have been investing heavily in natural resources exploration activities, resulting in an estimated underground worth of 3.4 billion Euros of secured mining exploration concessions. In addition, we have an indicative of over 22 billion Euros in forthcoming mining opportunities from base and precious metals in the pipeline, with focus on Gold, Silver, Zinc, Copper and Lead.

Blockchain technology is the imminent liberating future of all equities, assets and securities that gives you, direct ownership to your own shares, unprecedented liquidity, peer to peer

mobility that never existed before, better security, and vivid transparency. Its cost efficient regulatory compliance capabilities allow the sidelining of imposed unnecessary and expensive intermediaries, thus keeping all the value where it belongs – in your own hands! That is why we have chosen blockchain to fill that missing link between our Blueshare security tokens, and the underlying shares of **Interprom Mining AG**. Our goal is to raise over 200 million Euros in capital, to be invested directly into our mining and exploration concessions.

Blueshares are not utility tokens! Blueshares are security tokens that will be backed by a prospectus registered with both the Swiss Financial Market Supervisory Authority and with the Central Bank of Ireland. Our objective is through blockchain technology and the current and forthcoming mining opportunities to add tremendous value to our company, bringing capital appreciation and dividends to all Blueshare holders, through value creation, growth and unprecedented blockchain mobility and liquidity.

Our **Blueshare.io** platform will provide a secure solution based on the Ethereum blockchain, enabling whitelisted peer-to-peer trade, dividend payouts, and open communication channel between all investors. Due to its nature, **Blueshare** security tokens will be suitable for listing on fully regulated AML compliant traditional and crypto exchanges, thus reaching a vast number of markets and investors around the world. Join us! We believe that early visionaries harvest most of the value generated by innovation!

Public placement is by invite only, expected to start sometime in December 2018 or January 2019, as it is subject to the prospectus filing completion.

Only successful applicants that have qualified to receive an invite will be invited to take part and subscribe for Blueshares during the privileged public placement round.
